EDUCATIO PUERILIS RENOVATIO MUNDI EST -  
EDUCATION OF THE YOUNG TRANSFORMS THE WORLD

## SANTA LAURENSIA

Santa Laurensia, a progressive Roman Catholic school, located in lush and attractive Alam Sutera, provides a holistic education system with a global perspective to 3-18 years old children in an innovative learning environment.

## CURRICULUM

Santa Laurensia Senior High School develops its curriculum with a best practice approach, by combining **Indonesian National Curriculum for mandatory subjects and Pearson Edexcel International GCE Program (British-patterned curriculum)** for most core subjects. SLHS students study six mandatory subjects and three core subjects of their choice. They can also choose two elective subjects that best suit their interests.

Santa Laurensia's Senior High School **focused on the student's entire development** by involving critical analysis and creative thinking. Students are also encouraged to explore, gain their own understanding, and develop their personal character and faith. These are accomplished through **a holistic and integrated approach.** **For holistic development,** students take various courses in several subjects, along with various languages, and specialized courses that support the development of student potential.

## 21<sup>ST</sup> CENTURY SKILLS

To provide a holistic educational system with a global perspective, Santa Laurensia emphasizes the concept of **7Cs (Critical Thinking, Creative and Innovative, Collaboration, Communication Skills, Character, Citizenship, and Computational Thinking)**. Our school strives to help students reach their full potential, develop confidence, be competent leaders, and become responsible global citizens.
